

1,320 PERSONS ARE  
TREATED AT CLINIC

only few more men than women  
are enrolled for free treatment  
of various social diseases.

SEVERAL BREAKING PAROLE  
Due to shortage of funds officials  
at present unable to provide de-  
tention camp for recalcitrants.

of the 1,320 patients listed for  
treatment for the venereal diseases  
at the clinic up to May 31, 677 were  
men and 643 of these were women.  
Of the new admissions, 107 men and  
112 women were found to have  
syphilis, while 55 men and 140  
women were infected with gonorrhea.  
Men are being treated for can-  
cer due to venereal diseases.

With an average daily attendance  
of between 75 and 100 there are be-  
ing 40 to 45 blood tests sent to  
dynamite City nightly, for treatment  
at the state laboratory. Gonorrhea  
cases are also at the clinic, and are  
being treated.

There has been no arrangements  
as yet for a detention camp for  
patients who break parole be-  
cause they are completely cured. This  
is subject to two causes, insuffi-  
cient funds and the city limits and property  
rights.

The need for a place of detention  
arises both from parole  
breakers and from the refusal of  
the medical authorities that they must appear  
in examination. A list of about 20  
cases was compiled last night, and  
as physicians and police were ready  
to institute a search for them. The  
plan for non-appearance for ex-  
amination after one is notified is  
more and the maximum punishment  
will be meted out to those who  
desert in defying the laws, according  
to the physicians in charge.

RESTRANDING ORDER TO  
STOP THE USE OF GAS

Complaint restraining order was  
made in superior court Tuesday on  
behalf of the plaintiffs in the  
case of Chestnut and Smith, a cor-  
poration against the Polar Produc-  
tion and Gommon company, in which  
the plaintiff asks that the defendant  
be enjoined from taking gas-making  
gas from a lease in Okmulgee  
County.

The position held by the plaintiff  
is that the defendant company has for a long  
time interfered with the gas-making  
rights of the plaintiffs in the  
production of oil wells on prop-  
erty located in section 4-14-12, Ok-  
mulgee county, and that the defendant  
is in violation of the plaintiff's rights  
which has occupied several of the  
wells controlled by the plaintiff  
from the wells to the plaintiff's  
gas plant on an ad-  
ditional lease.

Under the terms of the court  
order the Polar company is prevented  
from using any of the gas produced  
from the wells on the lease, and is  
further required to return to the  
plaintiff company the full produc-  
tion of gas from the gas plant on the  
lease.
